**Why join the Lake Saint Louis  
Anglers?**

As residents of Lake St. Louis, the  
appearance and quality of our recreational  
water affects us all. Our goal is to have a  
positive impact on the conservation of our  
lakes. Your membership in the Lake St.  
Louis Anglers Club will go a long way  
toward improving the lakes for everyone.

In addition, you will receive our monthly  
newsletter that's jam packed with  
information on upcoming events and news  
on conservation issues as it relates to our  
lakes. You'll be invited to participate in  
the many fishing tournaments, family  
outings and conservation projects that we  
plan each year.

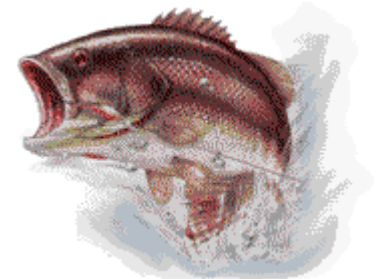

Be a part of the growing movement to  
preserve and improve our fishery. If you  
enjoy fishing in Lake St. Louis and want to  
help improve it, join the Lake St. Louis  
Anglers Club today!

For more information, visit us at our web  
site: <http://lslangler.com>

Or visit us at one of our monthly meetings  
held on the 2<sup>nd</sup> Wednesday of each month  
at the Community Association Clubhouse  
(7:00pm).

## **What is the Lake St. Louis Anglers Club?**

As early as 1971 there was a small group of residents that started a fishing club. They had a few tournaments and with the CA they made sure that fish were stocked in the lakes from time to time. In 1981, residents that wanted to continue what the earlier group started formed the Lake St. Louis Anglers Club. For a \$20 annual membership fee, the whole family could participate in all of the activities the Anglers sponsored. Today, our membership has grown to include about 80 families. Our calendar has grown to the point where we sponsor or participate in over 20 events including: Weekly Bass Tournaments, Kid's Fishing Derby, Habitat Workday, Lake Clean-Up Day, Crappie and Catfish Tournaments as well as various social events. We also sponsor a monthly fish contest and award prizes for the biggest catch of the year for each species of fish.

## **Conservation/Education**

The Lake St. Louis Anglers Club consults with the Missouri Department of Conservation whenever conservation concerns or issues arise. The MDC has assisted us in creating a plan that allows us to improve water quality and fish populations in our lakes. The Missouri Department of Conservation has also helped us to initiate a vegetation/habitat

program that is aimed at helping to reduce siltation and bank erosion as well as creating habitat for fish.

The Anglers occasionally have special guests at our meeting to speak on various topics such as, boating safety, boat maintenance and winterizing, fishing techniques, sonar and electronic graphing, community updates, etc.

## **Membership Benefits**

As a member of the Lake St. Louis Anglers Club, you will receive our monthly newsletter packed with valuable information on conservation issues and our event schedule.

You will be invited to fish in our group outings and fishing tournaments. You'll also have the opportunity to give back to the lake by helping with our habitat program or assisting in our clean up efforts that we perform in conjunction with the Community Association.

Informative monthly meetings are lively and well attended. You'll find that valuable fishing tips are freely shared among members of the Lake St. Louis Anglers Club.

All residents of Lake St. Louis are welcomed to join our group. We meet the second Wednesday of every month at the Community Association Clubhouse. Meetings start at 7:00pm and usually last 45 minutes to an hour.

## **Fishing Regulations**

The fishing regulations on our lakes are posted on signs located at the boat ramps on both lakes. The regulations can also be found on the Anglers Club website: <http://www.lslangler.com> These regulations have been formulated using information and advice given to us by the Missouri Department of Conservation. They represent a course of action that is aimed at improving our fishery for all. We follow state regulations on all species not mentioned on the fishing regulation signs at the marinas. Please follow all catch and release guidelines that are posted on signs around the lakes.
